Learn how HIV & AIDS is  
spread and how to protect  
yourself.

*Click right arrow key to advance to next slide*

Be safe.

The way to be 100% sure of this  
is to remain abstinent.

I want others to know that though  
you have fallen, it doesn't mean  
you have to stay down!

**GET UP AND KEEP ON GOING.**

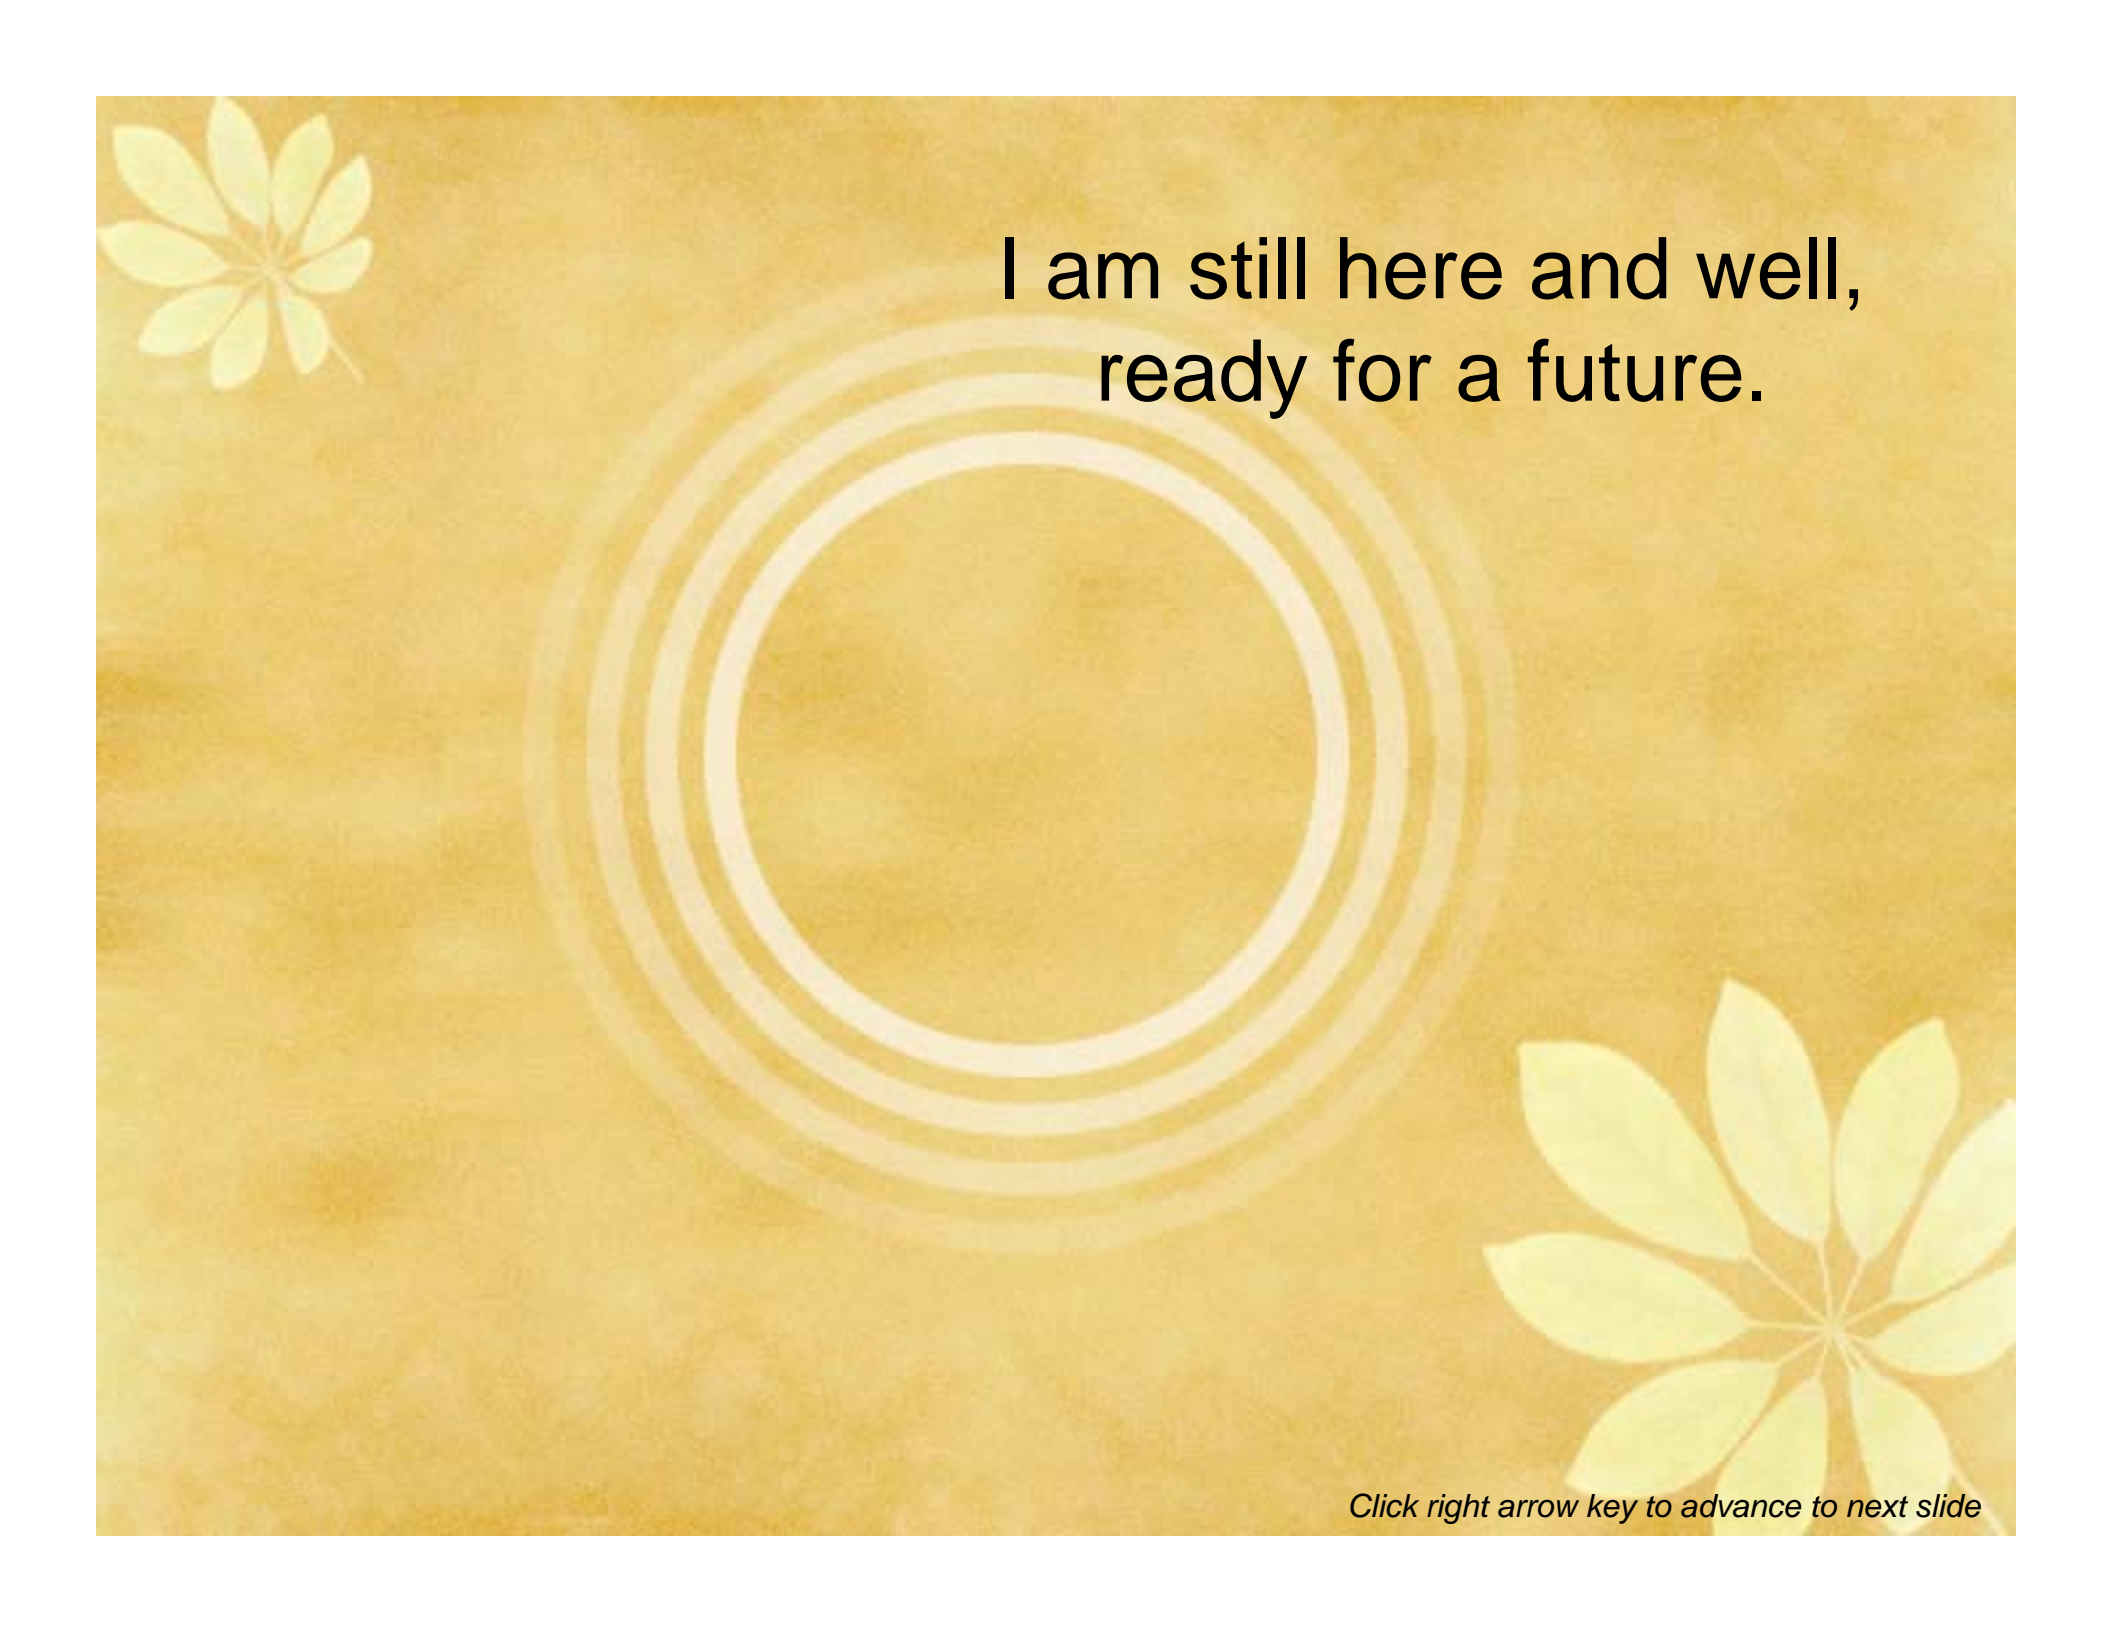

*Click right arrow key to advance to next slide*

Stay straight further in life and  
become a better person.

*Click right arrow key to advance to next slide*

I am still here and well,  
ready for a future.

*Click right arrow key to advance to next slide*

Do the right thing no matter  
what it is.

Take care of your health and  
use protection.

*Click right arrow key to advance to next slide*

Stop drug abuse before

it's too

late.

*Click right arrow key to advance to next slide*

**It is important  
to use condoms.**

*Click right arrow key to advance to next slide*

Love yourself from the inside out.

You are  
in control  
of you!

*Click right arrow key to advance to next slide*

I have come a long way, and...

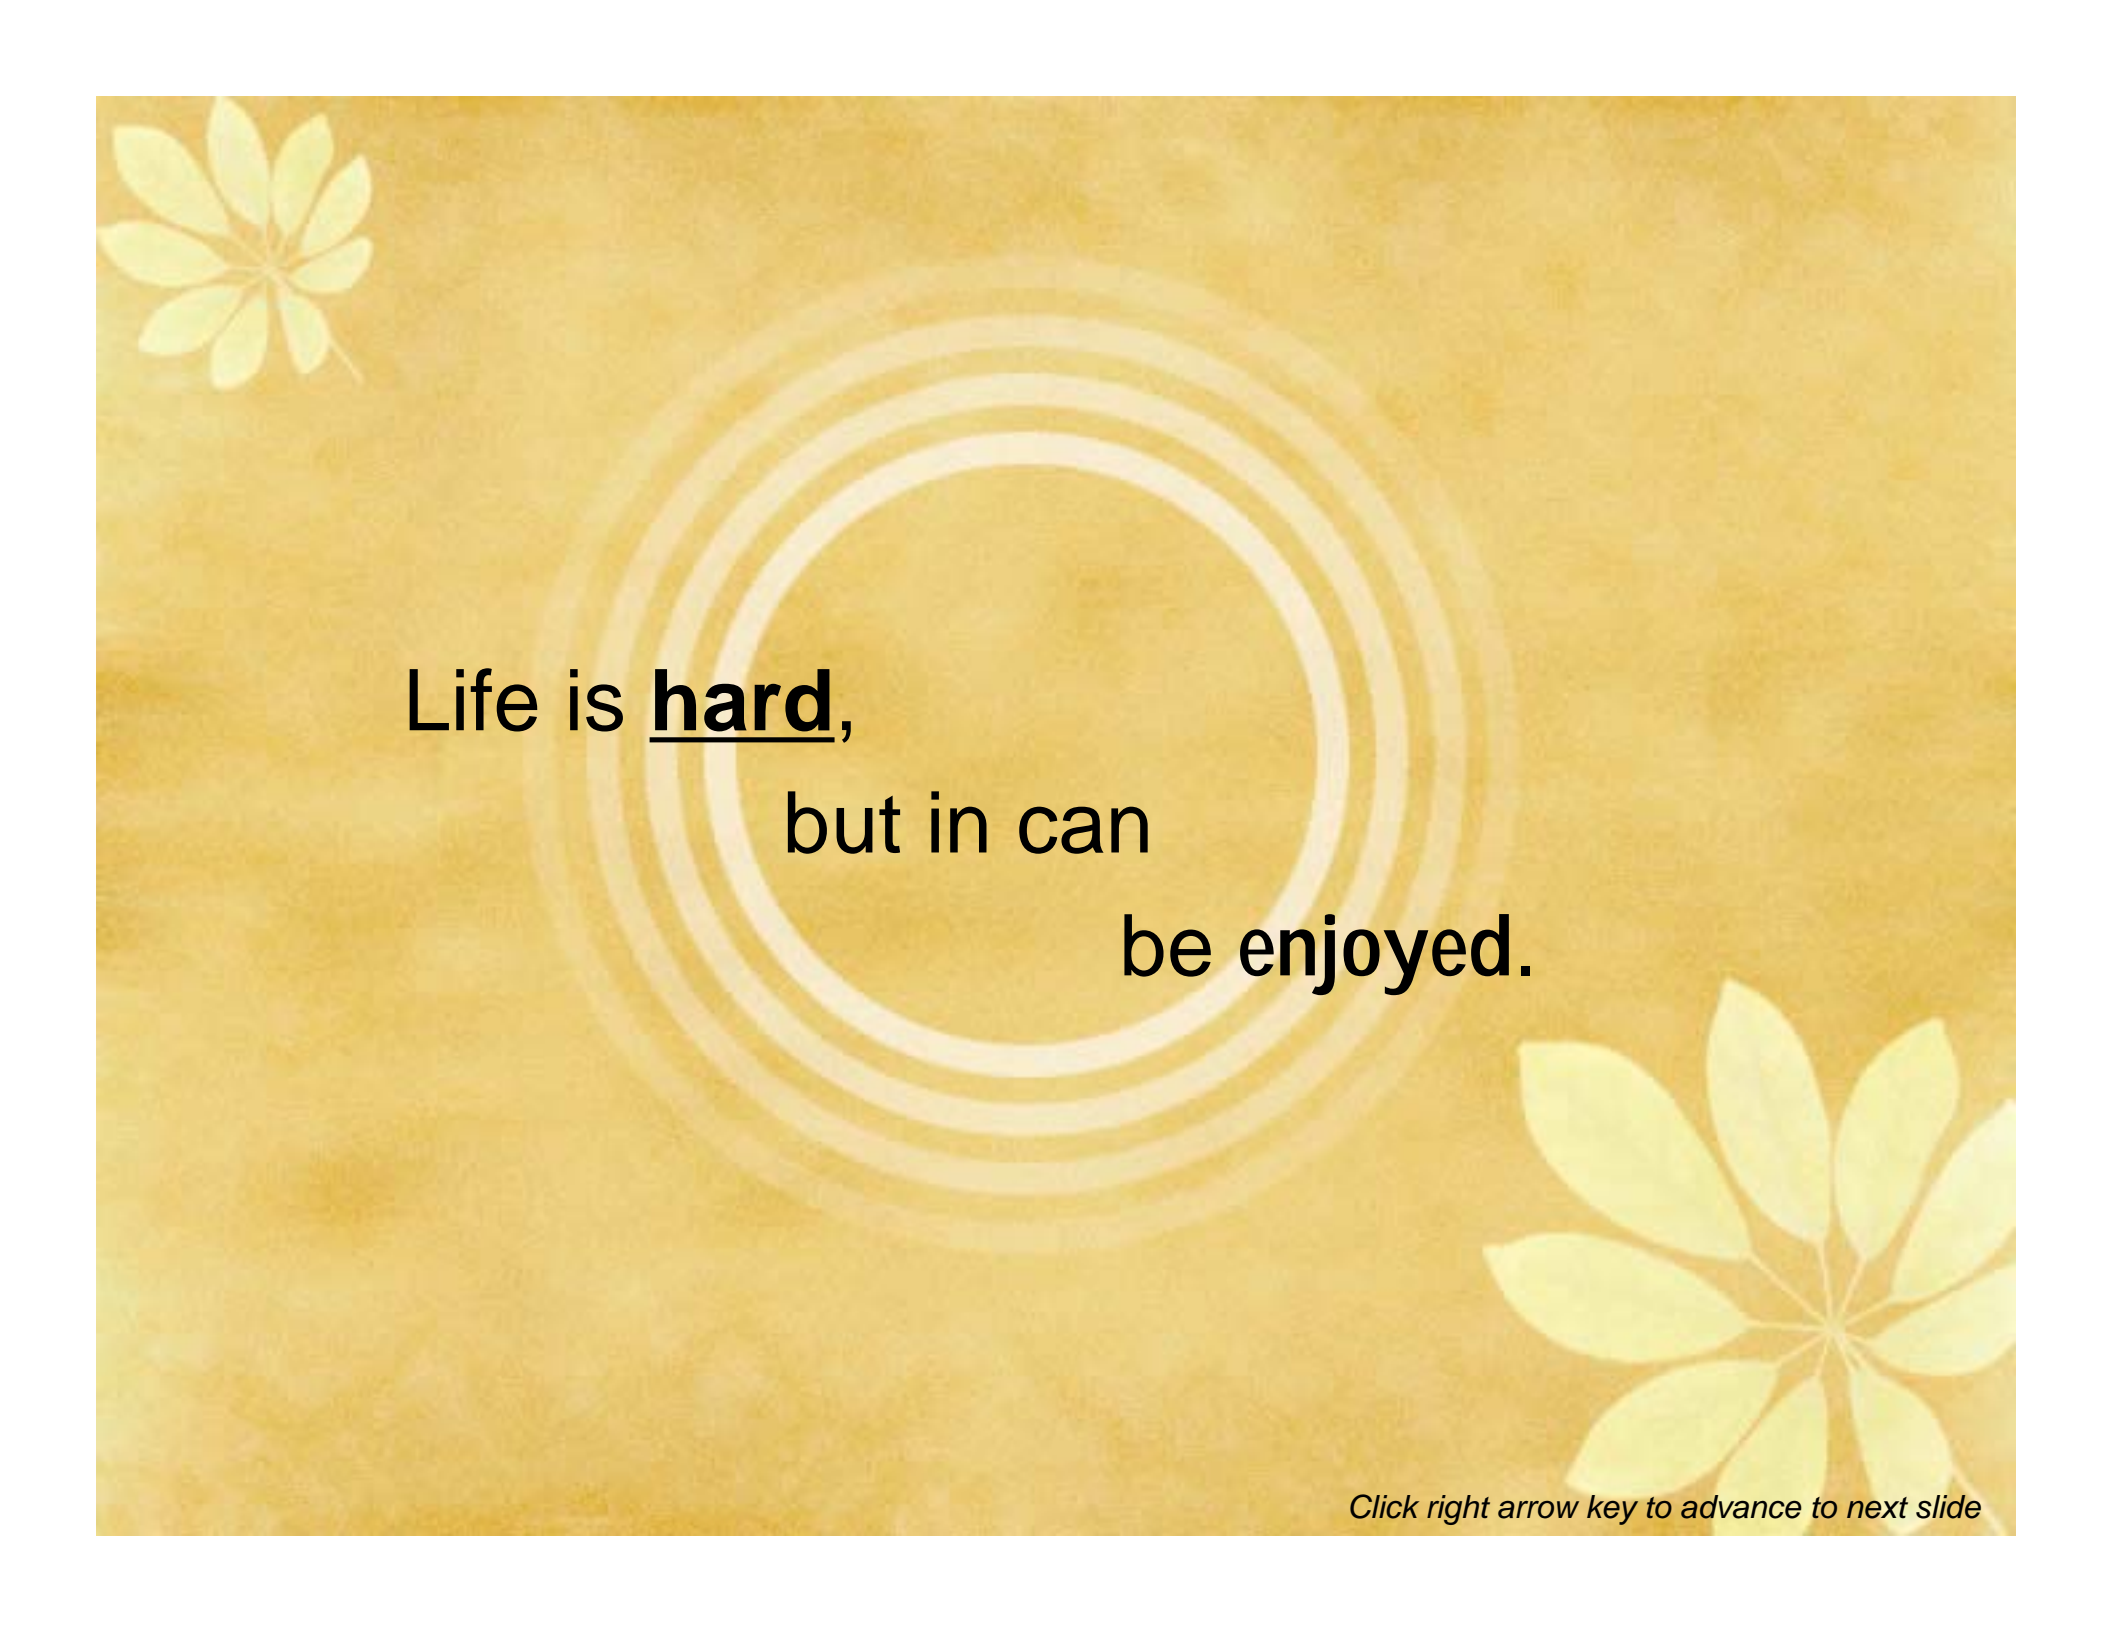

*I could be somewhere dead*

*Click right arrow key to advance to next slide*

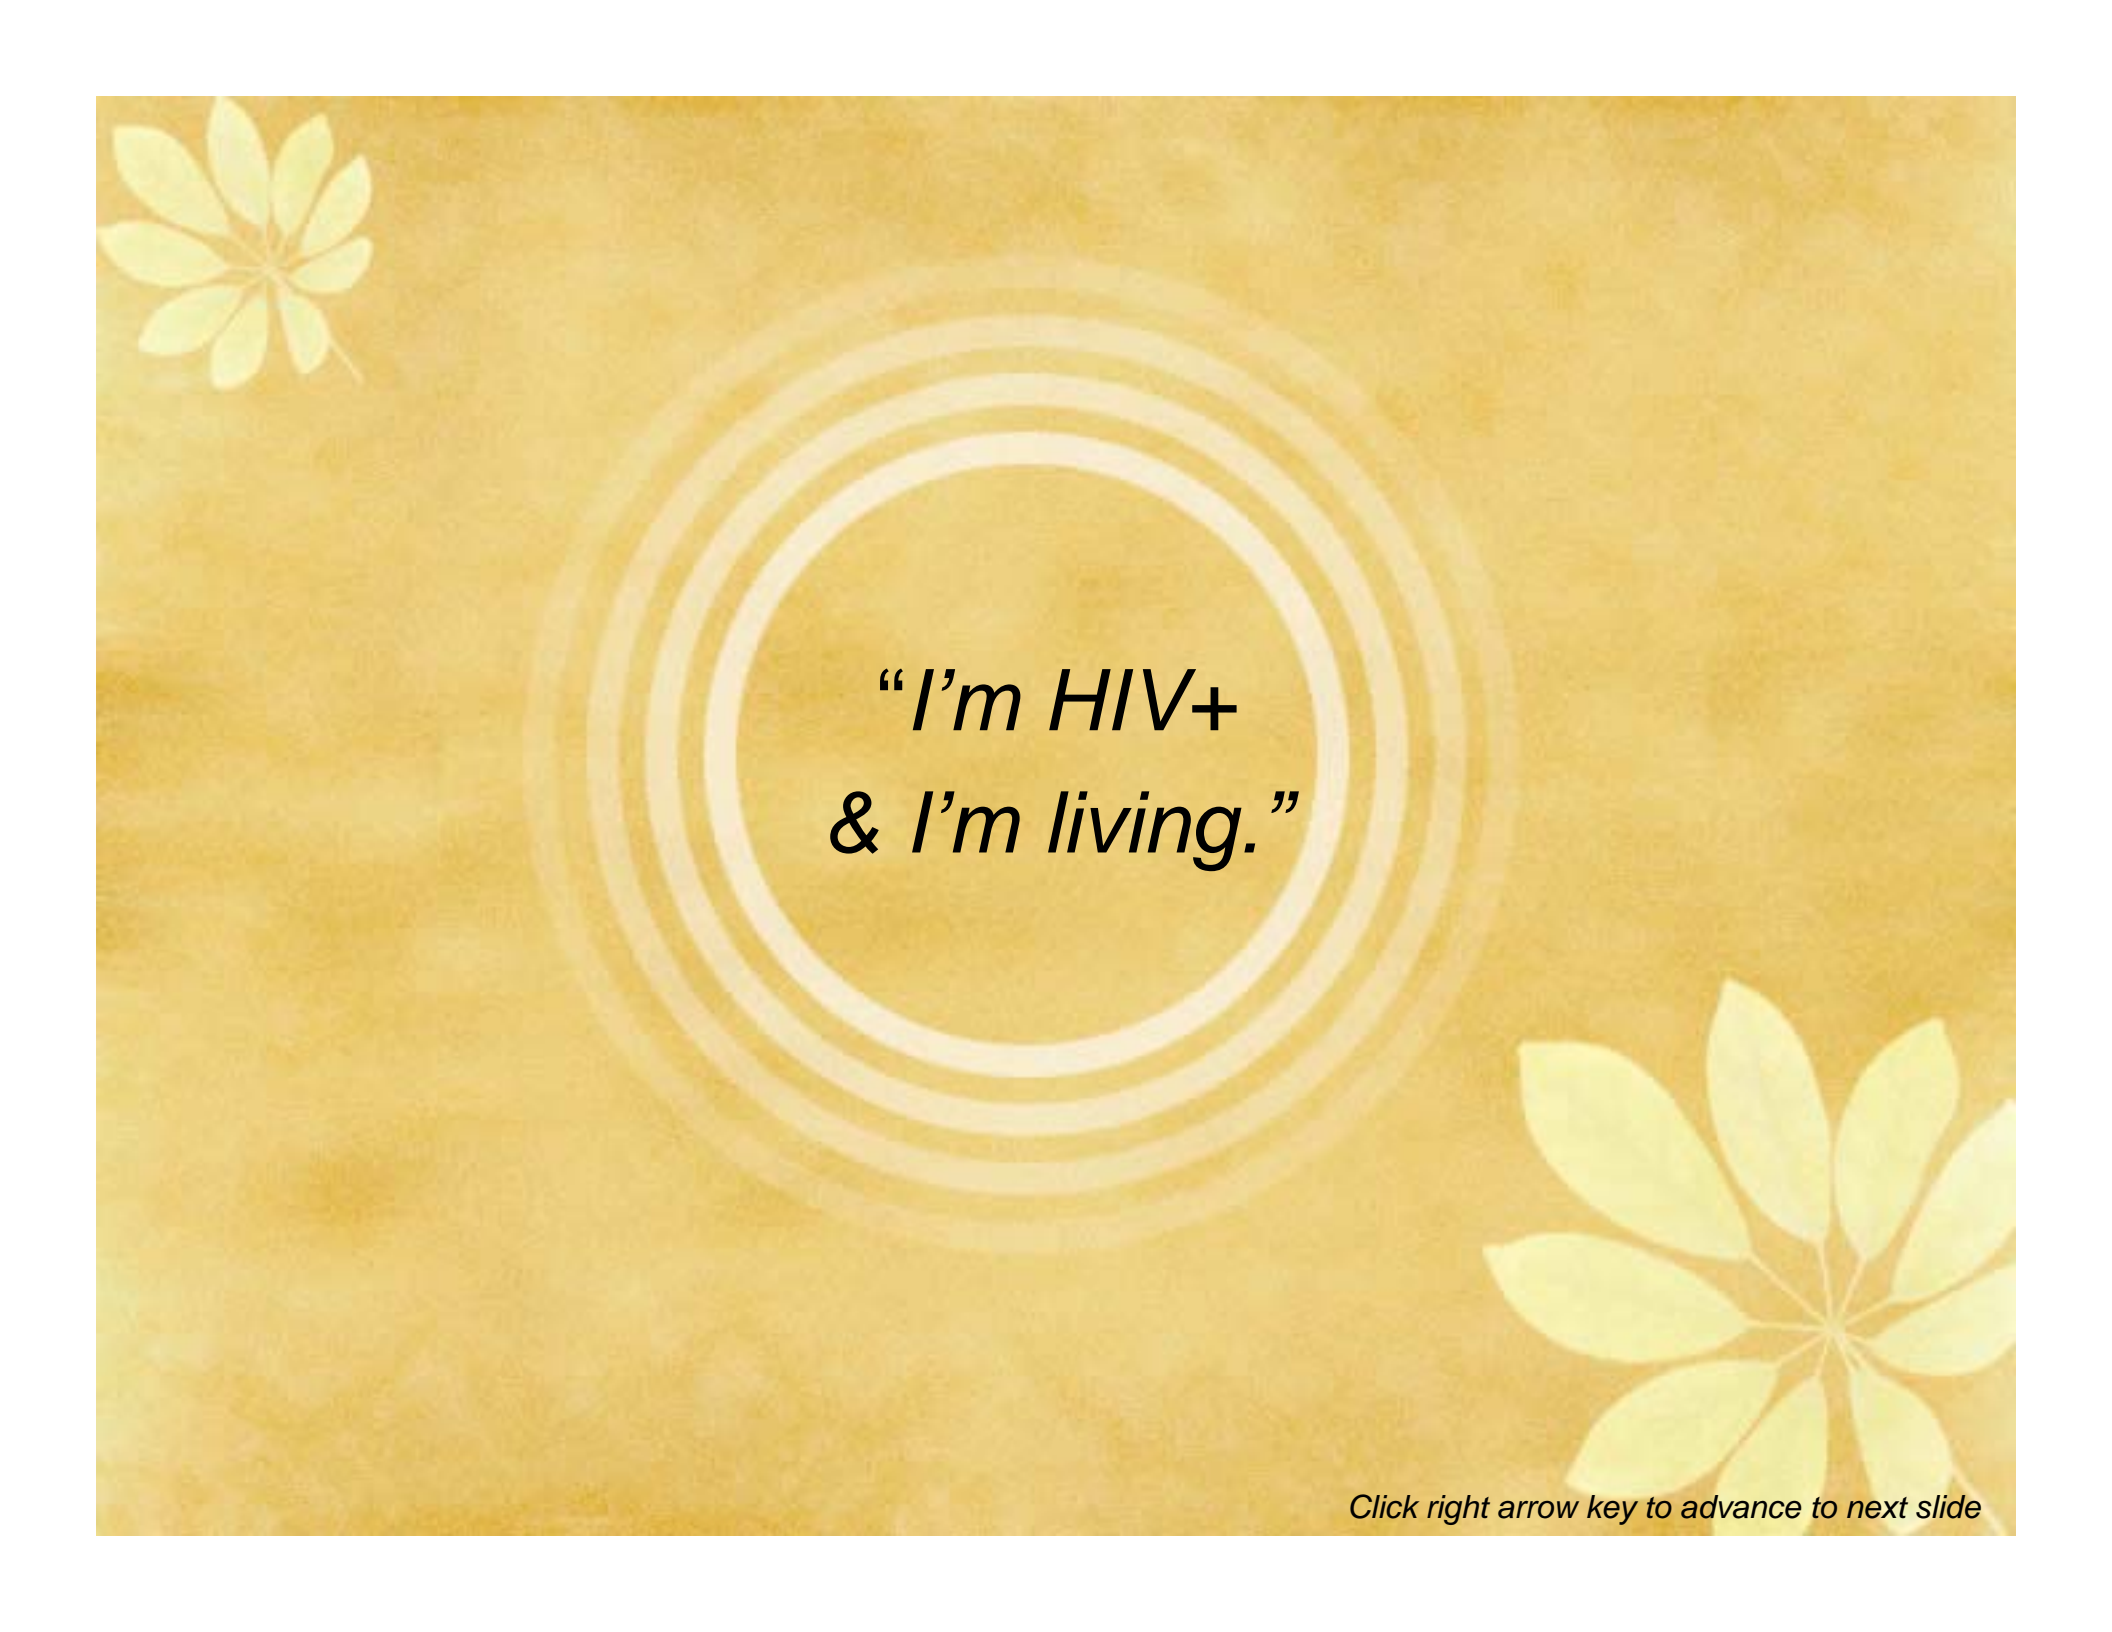

I no longer have  
to live in the past.

*Click right arrow key to advance to next slide*

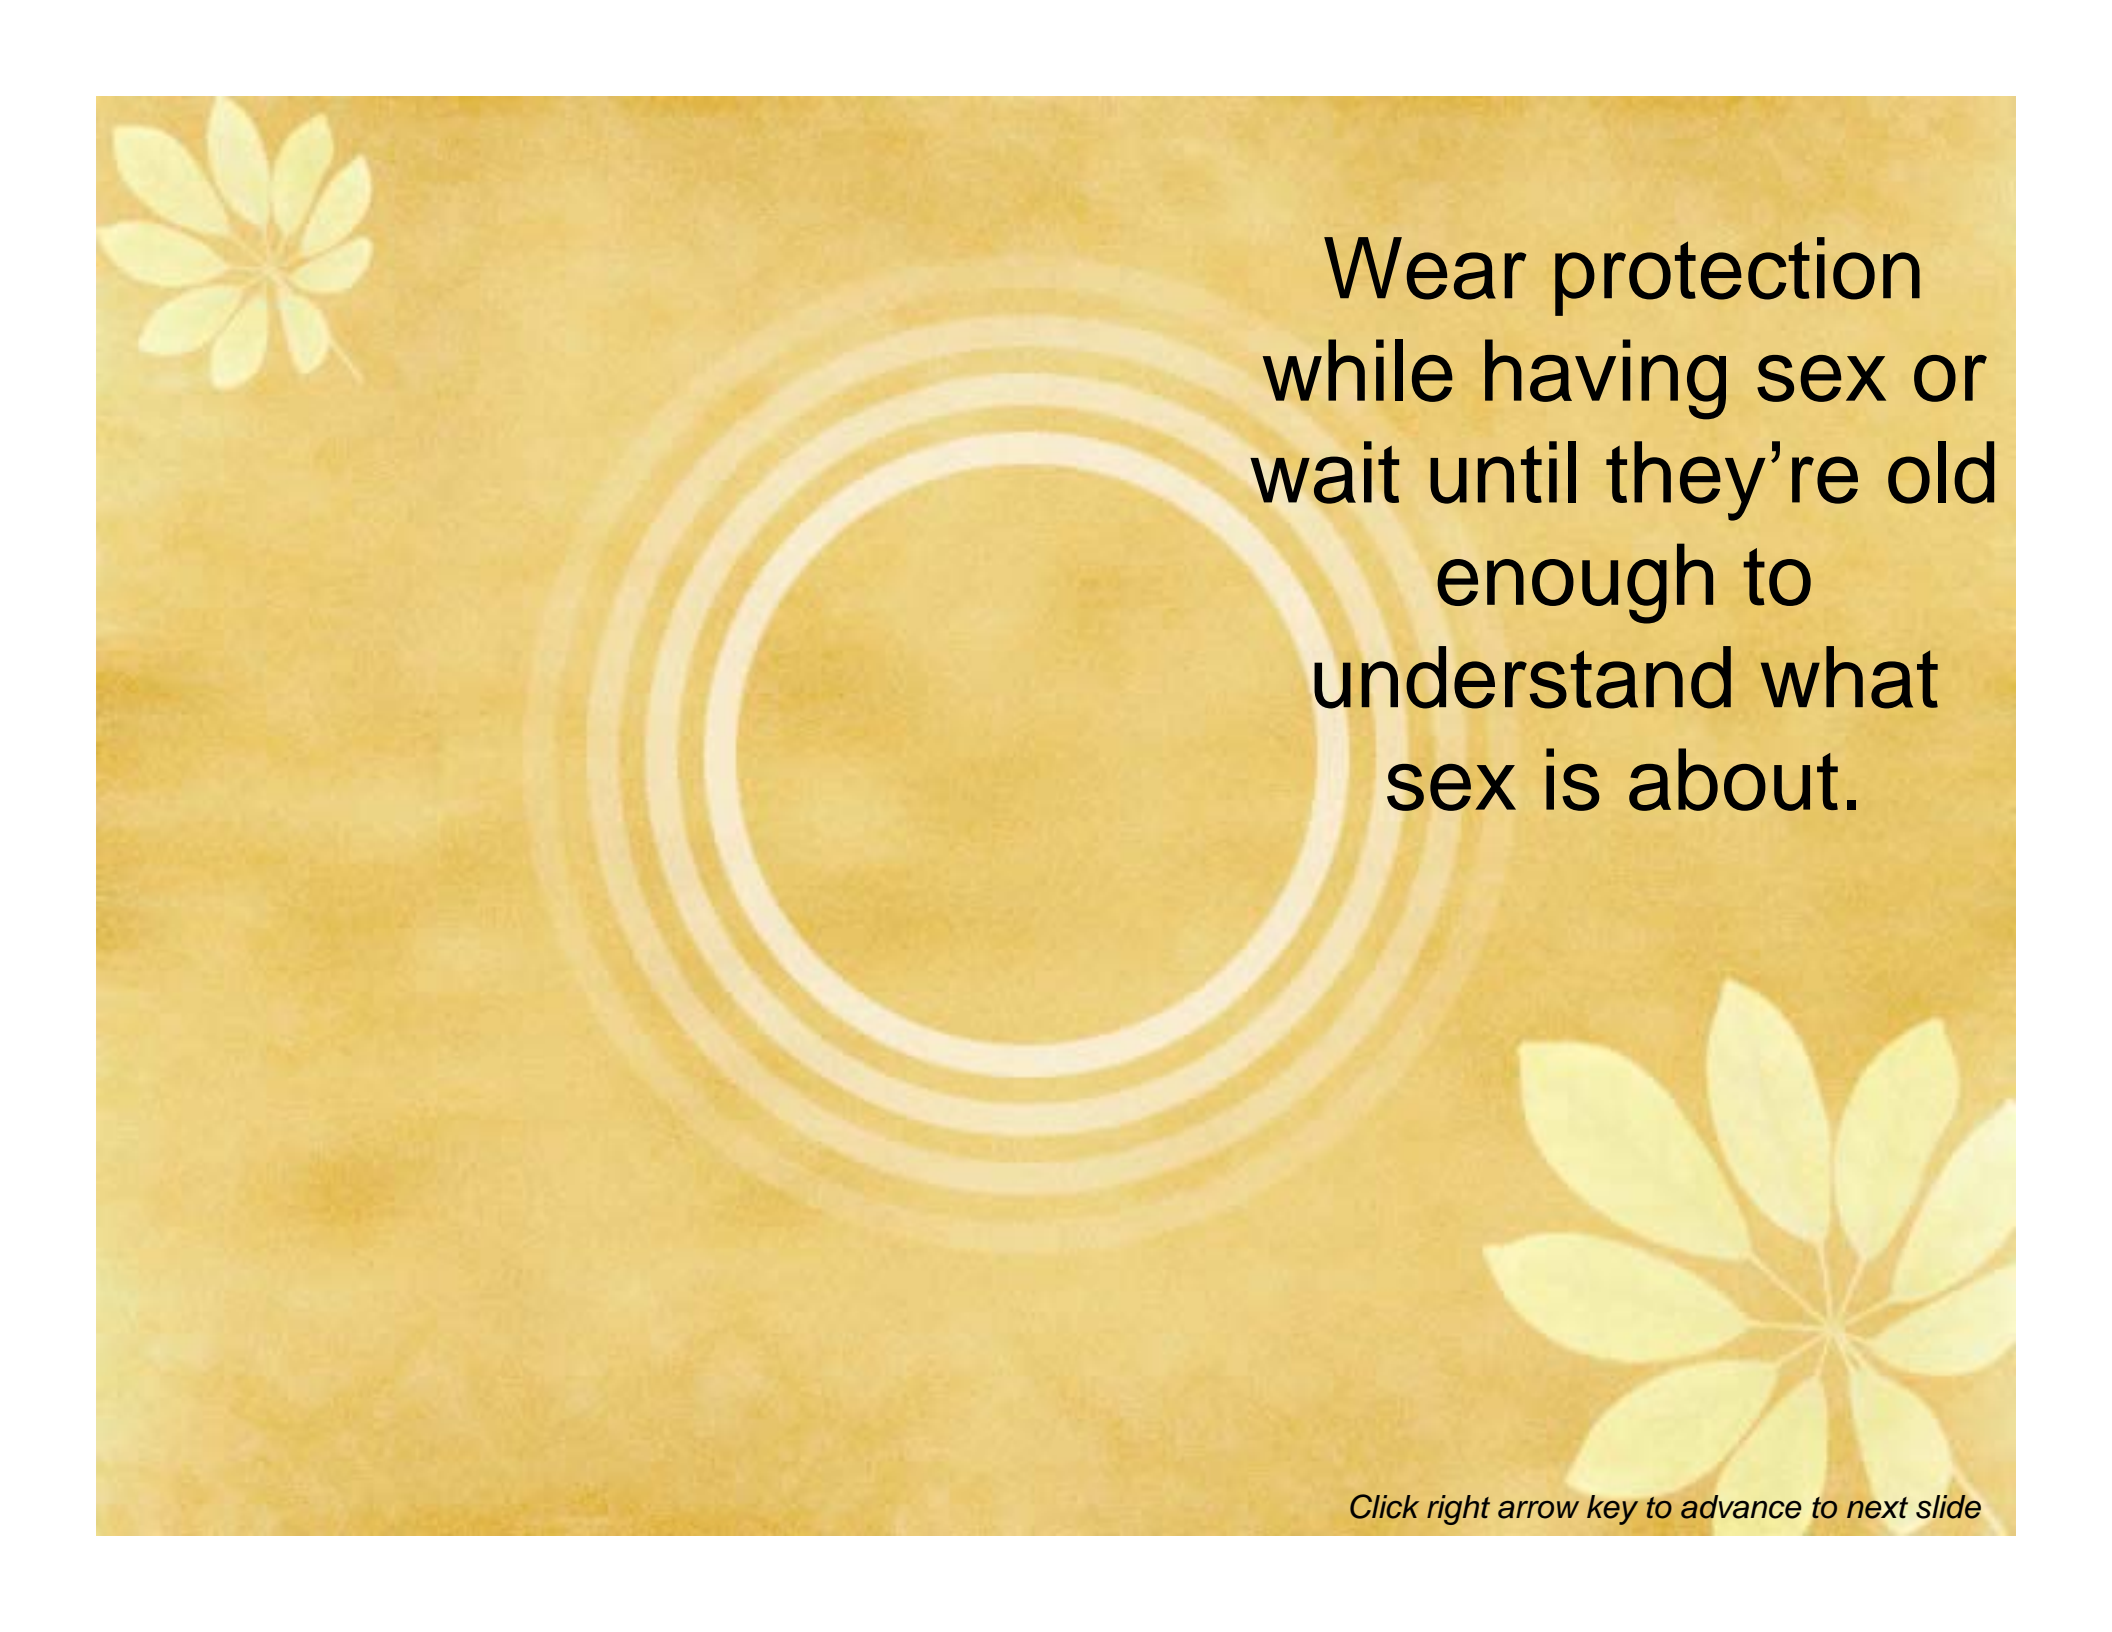

Life is **hard**,  
but in can  
be enjoyed.

*Click right arrow key to advance to next slide*

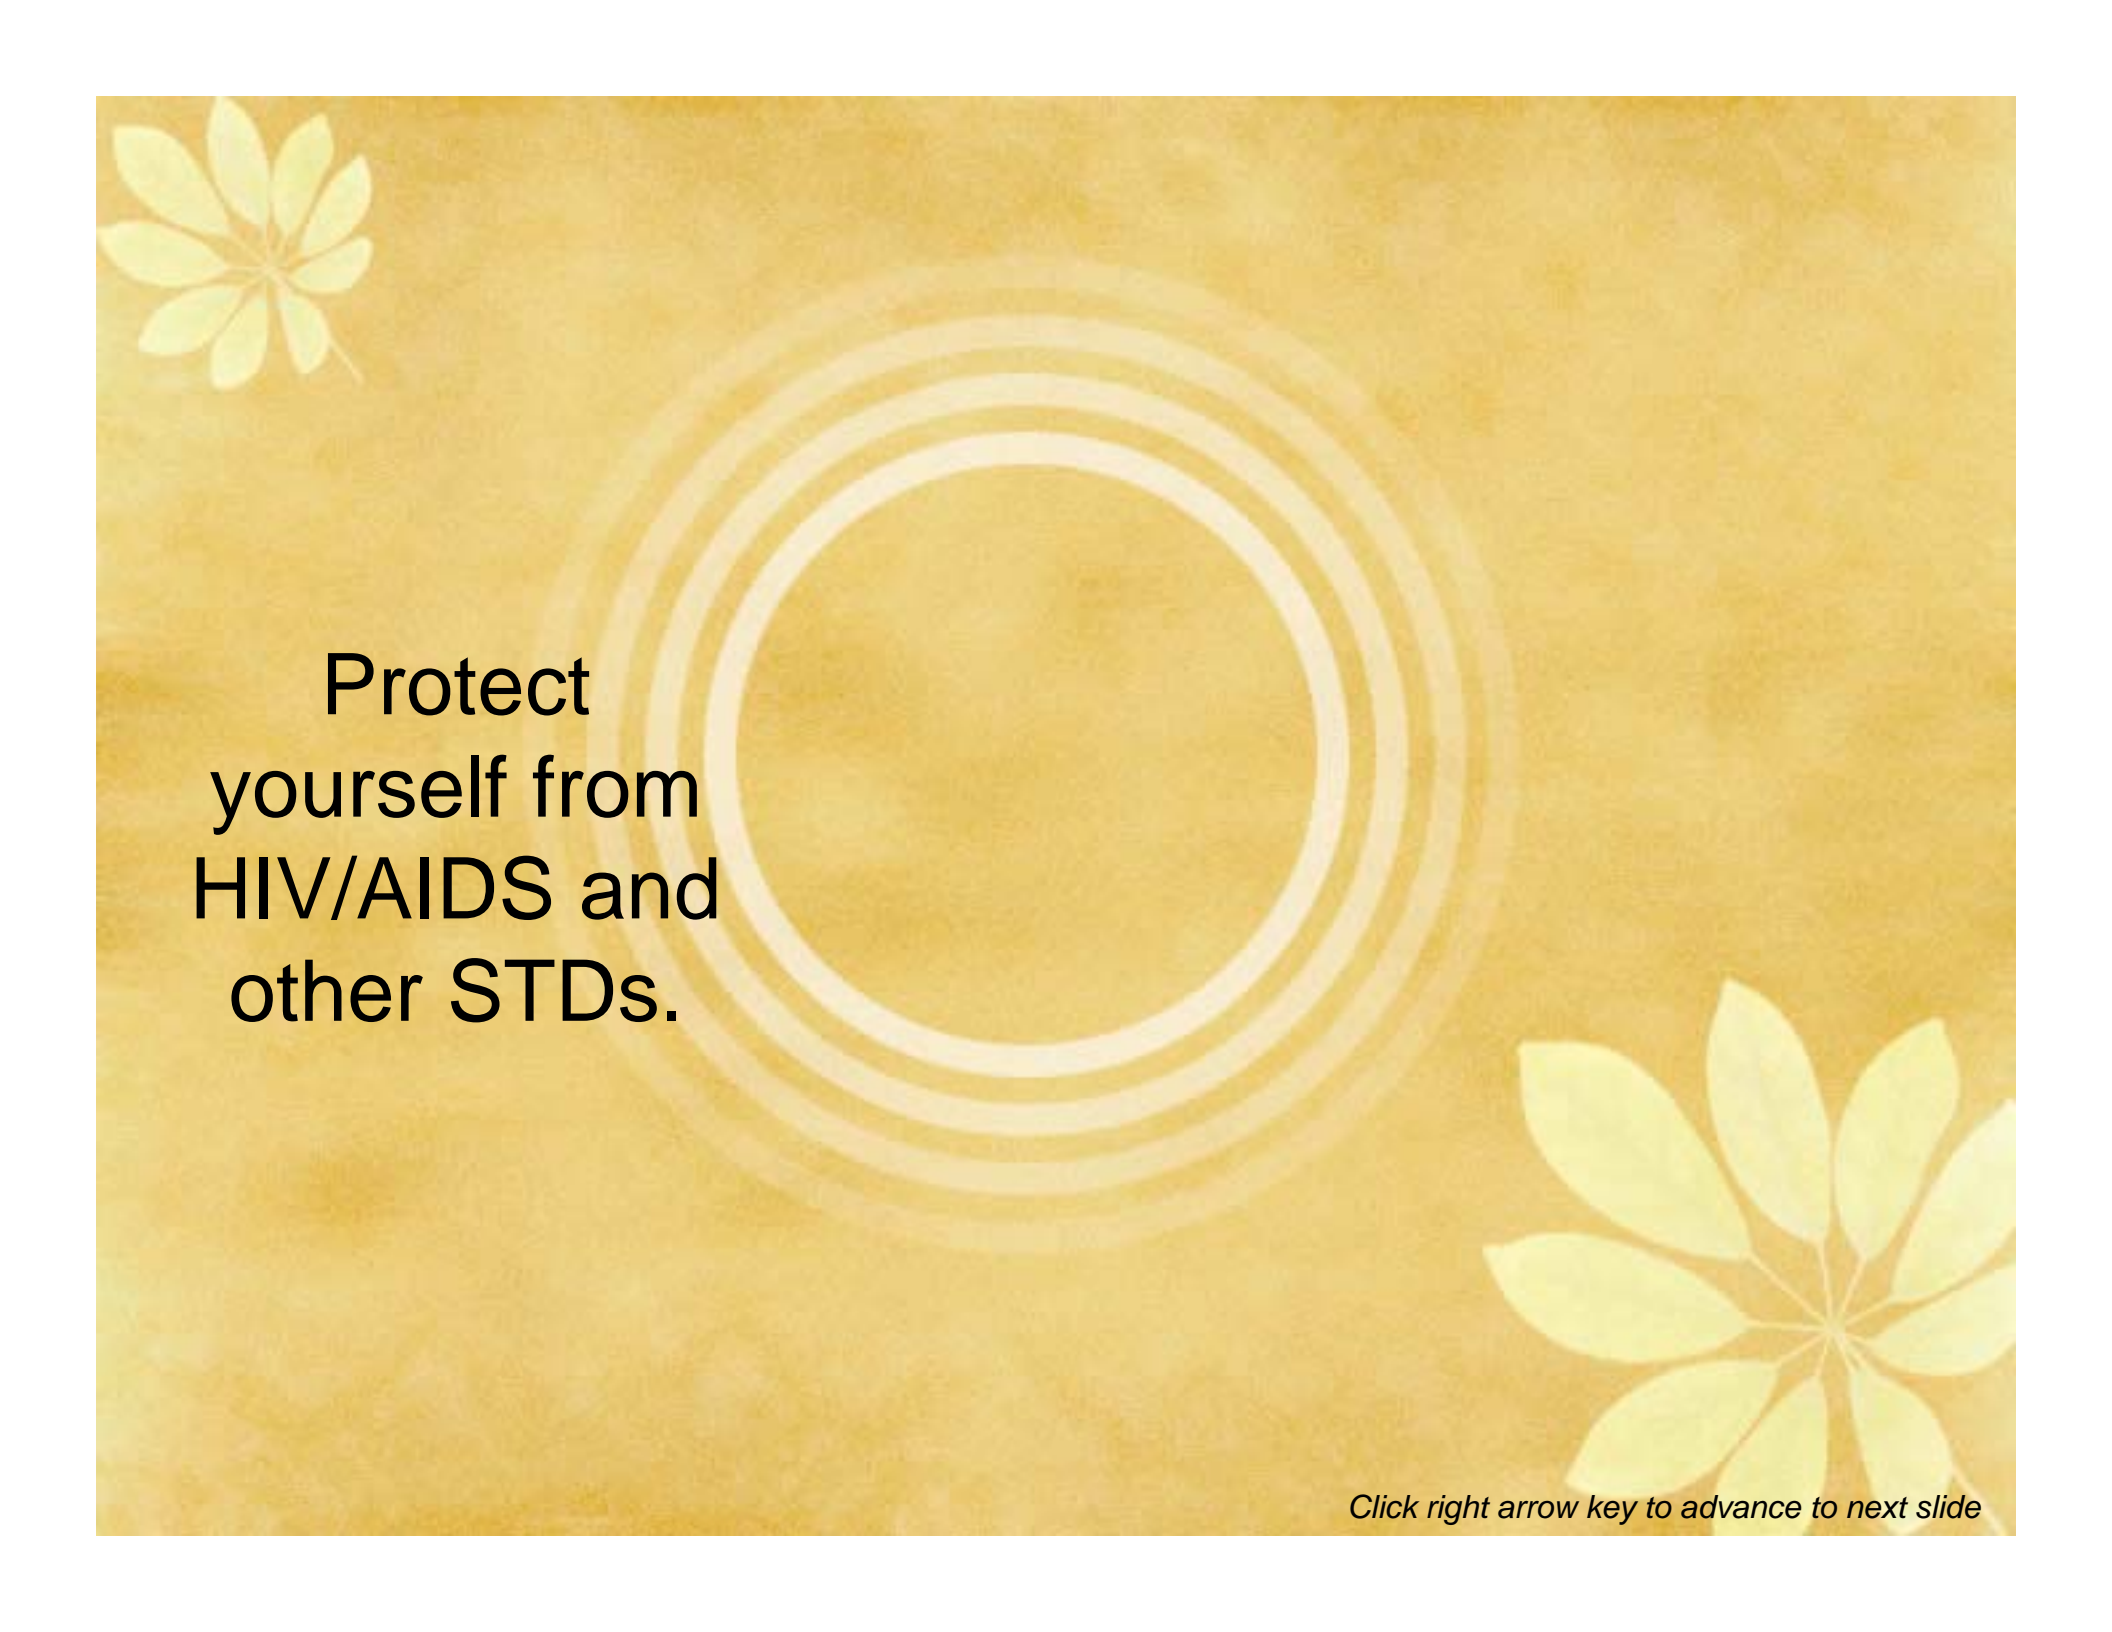

*“I’m HIV+  
& I’m living.”*

*Click right arrow key to advance to next slide*

Wear protection  
while having sex or  
wait until they're old  
enough to  
understand what  
sex is about.

*Click right arrow key to advance to next slide*

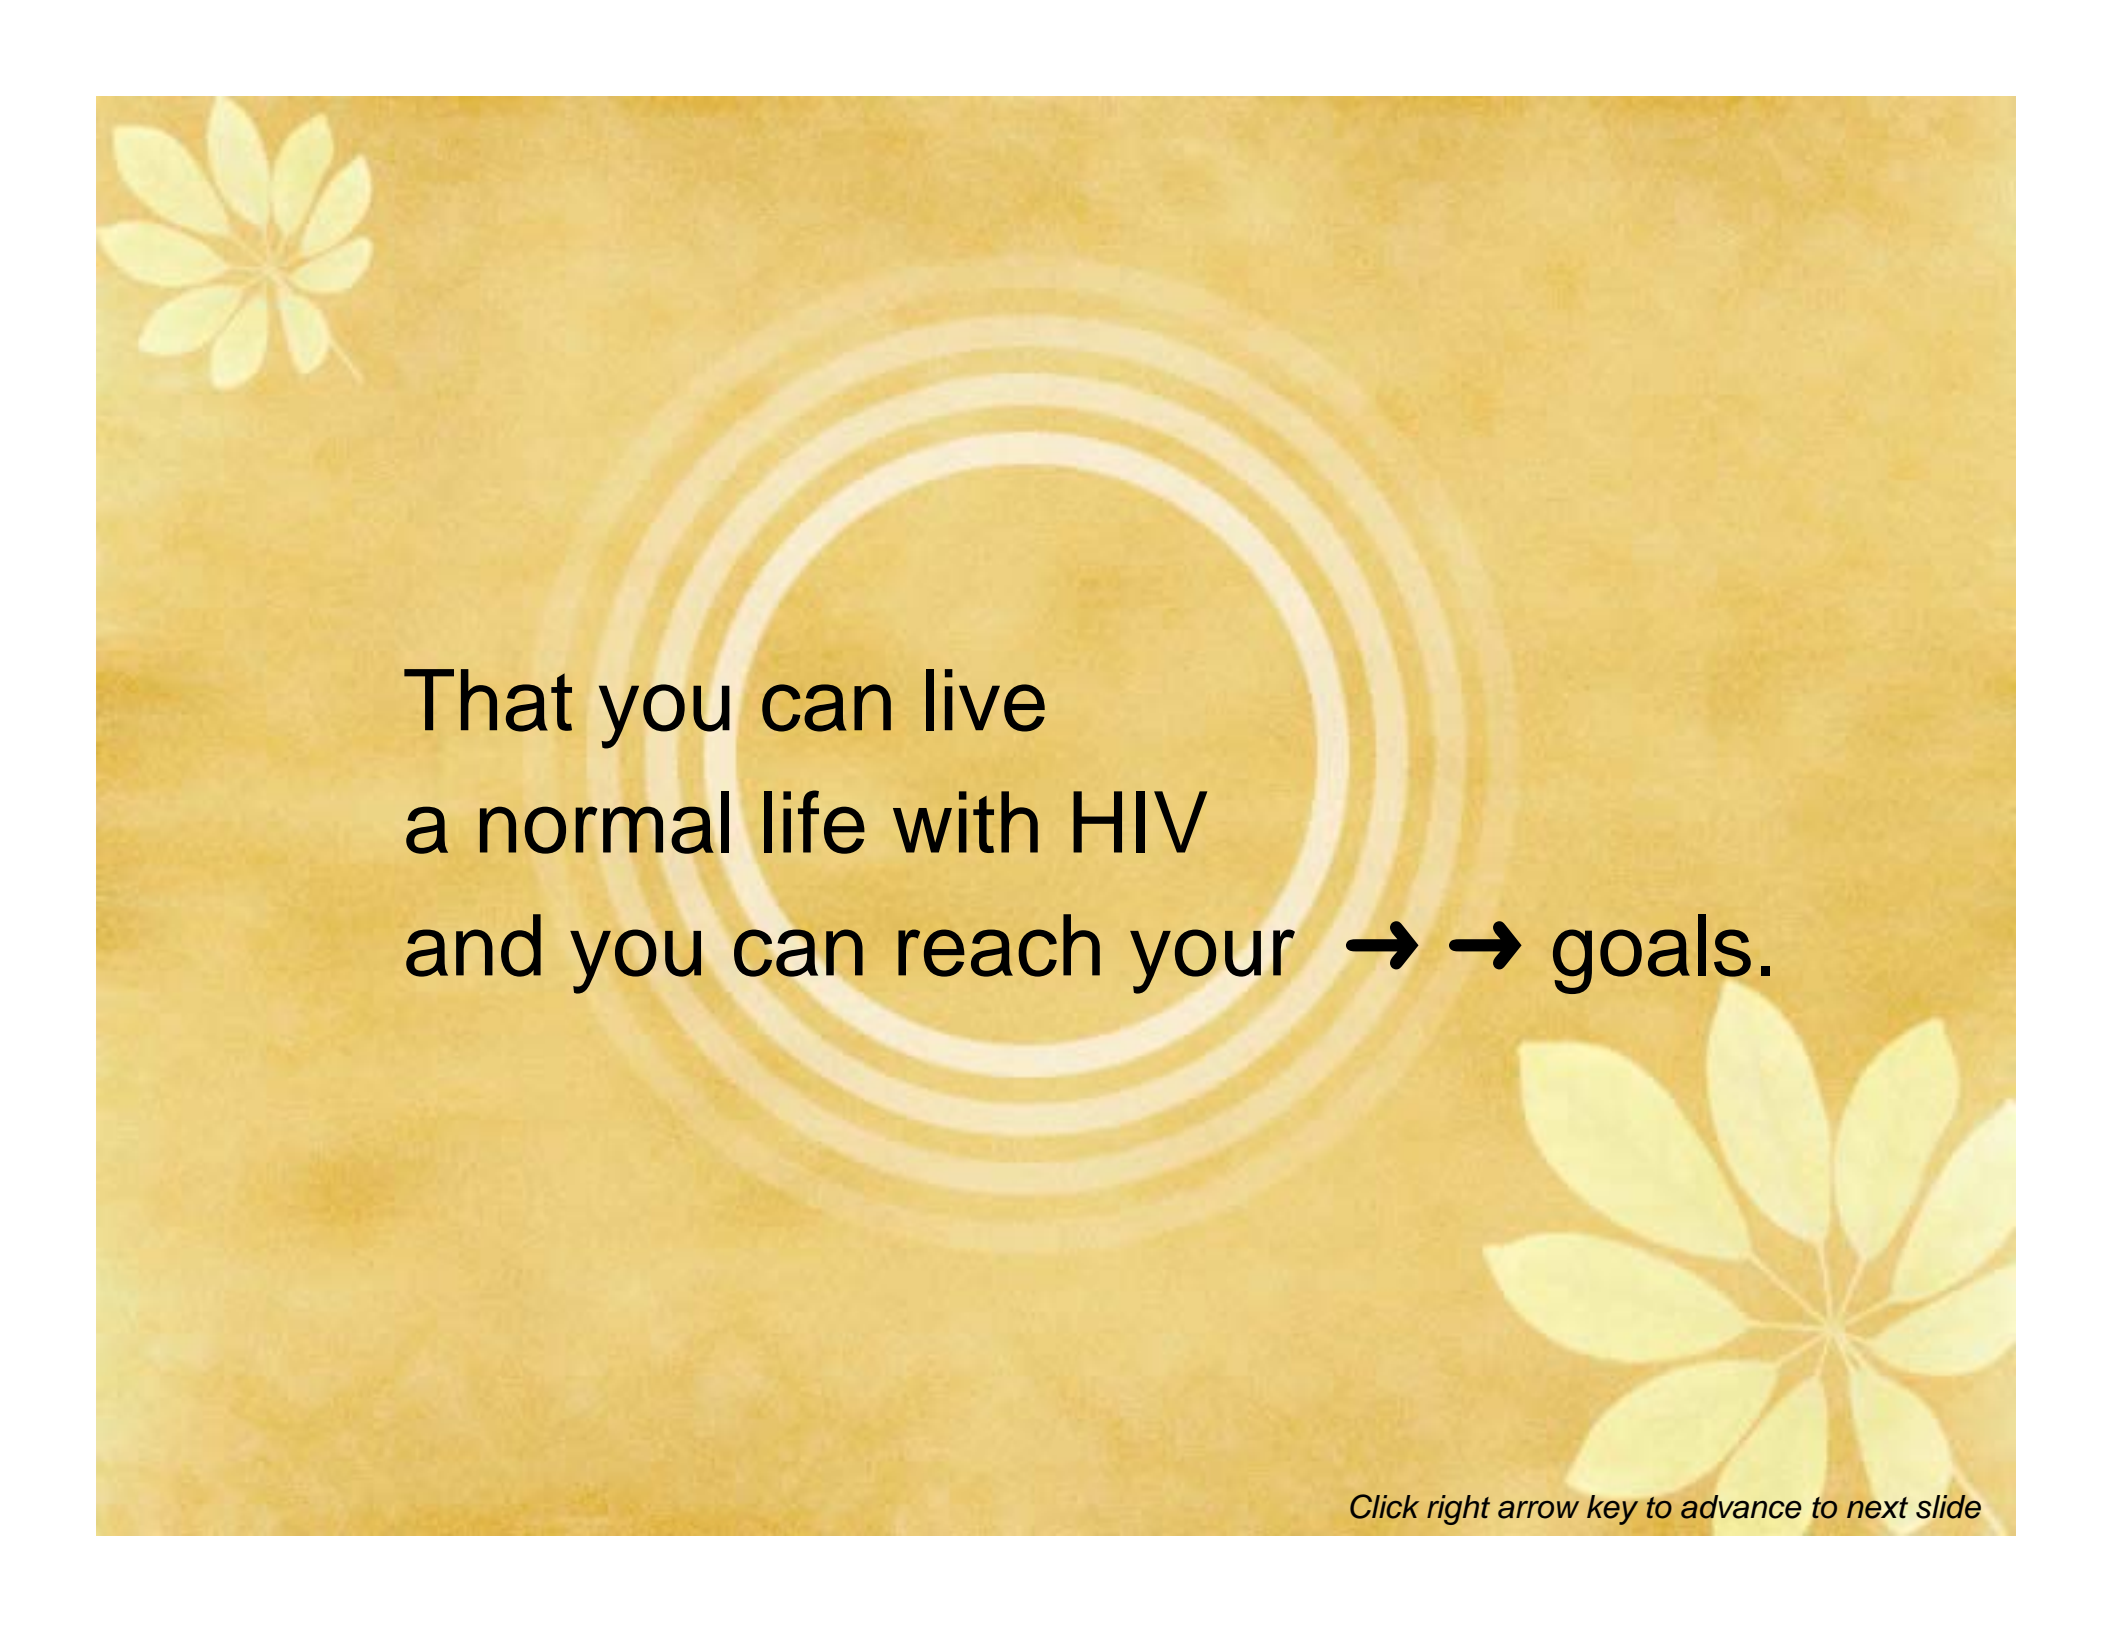

**Protect  
yourself from  
HIV/AIDS and  
other STDs.**

*Click right arrow key to advance to next slide*

Have safe sex.

*Click right arrow key to advance to next slide*

That you can live  
a normal life with HIV  
and you can reach your → → goals.
